Active Catalog 2022

---
Ready Design

Ready Design is our ready-to-go collection of activewear designs. Choose the pieces you like, put your brand on them – and they’re ready to sell! Each year we conduct extensive research on what sportswear is in, what’s out, and what the upcoming trends are for the season ahead. From that we create a collection of styles – both on trend and re-worked classics.

You can mix and match tops, shorts and leggings between any styles. You could even combine them with your custom designs to flesh out your active line. All styles are available in our full range of fabrics, in all colors and in any print. There are no development costs (pattern making & grading) with ready design. You only pay per piece. It’s the quickest, simplest and most affordable method to manufacture an activewear label.

Custom Design

Custom Design is where your ideas shine! For us to develop your dream athletic or sport piece we want to understand your ideas clearly. Ideally this means complete tech specs + patterns or samples of what you want to develop. But since we also work with non-designers we are definitely flexible. We have example templates (which we call sample specs) with clear instructions of how to start and what we need from you. This could include pictures of products you like with notes on any adjustments. We’ll happily guide you.

Extra Notes Feel free to take design inspiration from our Ready Design range – taking parts from one design and adding to another or combining them with your own ideas.

You can buy samples and bulk of it right now at shop.baliswim.com!

Mix and match tops, shorts and leggings between any styles as you wish. You could even combine our designs with your own designs to complete your active line. Take the designs as they are (and add your choice of colors and prints) and there will be no development fees (pattern making & grading).

You only pay for what you order (the full price list can be seen at the end of this catalog).

If you want other cuts or to adjust the design of our styles in other ways you can - but we'll treat it like a custom design and we need to re-develop the style from scratch which incur development fees.

Adding or switching a small accessory detail is most likely accepted without re-development. Do ask us, and we'll let you know.

We will be releasing new designs yearly, both classics and on-trend.

Prints

We do all our prints in house. All of our prints are made using ecological inks (ECO PASSPORT certified by OEKO-TEX®).

Endless print options.
Always using Eco Ink.

Print Strikes
For all prints, we offer a mock-up & print-strike service, where we send you a digital mockup for proportion (size) approval, and then we make a trial-print a 30x30cm swatch to send you. From there, you can personally verify the quality of the print itself, and if there’s something you aren’t satisfied with, we’ll revise it!

For fabric prints, the digital print file (artwork) must be high-resolution (300dpi+) to print well. It can be a vector, JPG, PNG, TIFF, or any other format – as long as the file is high-res.

Seamless
Artwork should be seamless or set up for repeat, which simply means that you can put copies of the print next to it in each direction so that it matches up without any interruption in the pattern. If it’s not repeatable initially, you can sometimes mirror the image four ways, and thus create the same effect. We can assist you in ensuring that your print is able to be repeated and replicated in a clear pattern.

Scale
Lastly, the scale of your print is key. For example, you have an artwork/pattern of a starfish - what’s the height of each starfish? The difference between a small cute 3cm starfish and large 15cm starfish will make a difference on your end-result.

Helpful tip: Develop your labelling during the sampling stage/early - so that it doesn’t hold you up later.

Is bulk production a must if I sample with you?
No! When you order with us, there is absolutely no obligation to complete a bulk order after producing a sample. You also own your patterns that we develop for you.

What file format for CAD do you work with?
DXF and DGS.

Do you make: swimwear?
Yes! Grab our catalog [here](#).
**What are your Terms & Conditions?**

Please read our T&C by clicking [here](#).

**How does it work when I order full rolls of imported Italian fabrics?**

If you want to order colors of Carvico or JL that is not in our stock, we have to order full rolls. We make the purchase for you, but you are responsible for covering the full and complete cost of these materials before your purchase. When you use the fabric later on in production, we deduct the value of the fabric used against the production. You can see it as a pre-paid credit.

However, if you choose to save some fabric or not use it all, that means you have fabric that is left in our warehouse, which we will keep for future orders. When you use that fabric later on for a future order, we will credit the value for that next order.

Example: You’ve placed a total order of $10,000 and in this bulk production, we are using your saved fabric rolls at value of $3000 – then that amount will be deducted from your next order so you’ll have a value of $7000 remaining.

**Do you sell fabrics only?**

Yes. We sell fabrics with minimum order of 1 meter. Order [here](#).

**Who are your clients?**

Aligned with our T&Cs, we do not disclose names, designs, or any information regarding our clients. But on our [homepage](#) and our [Google Maps](#), we have a few reviews from our clients who chose to share their experience working with us. We value privacy and integrity.

We manufacture for labels worldwide, a majority of which are in North America, Australia, and Europe.

We’ve helped a number of our clients launch their new swimwear lines and they’ve grown with us over the years. We’ve also worked with established brands who were seeking a new manufacturing partner.

**Can we visit you in Bali?**

Of course! Our 2000 sqm superfactory hosts all of our operation for you to visit and see. We have private showrooms where you can meet your rep or merchandiser in comfort for an in-depth design and manufacturing discussion and do fitting of your samples. We are located in west Denpasar on a major road for easy and quick access from any location in Bali. To visit our factory please make an appointment first, [here](#).
We donate 10 cents per active set to clean up our oceans.
