Active + Lounge Catalog 2022
Ready Design

Ready Design is our ready-to-go collection of activewear and loungewear designs. Choose the pieces you like, put your brand on them – and they’re ready to sell! Each year we conduct extensive research on what style is in, what’s out, and what is the upcoming trends are for the season ahead. From that we create a collection of designs – both on trend and re-worked classics.

You can mix and match tops, shorts and leggings between any styles. You could even combine them with your custom designs to flesh out your line. All styles are available in our full range of fabrics, in all colors and in any print. There are no development costs (pattern making & grading) with ready design. You only pay per piece. It’s the quickest, simplest and most affordable method to manufacture a label.

Custom Design

Custom Design is where your ideas shine! For us to develop your dream athletic or sport piece we want to understand your ideas clearly. Ideally this means complete tech specs + patterns or samples of what you want to develop. But since we also work with non-designers we are definitely flexible. We have templates example (which we call sample specs) with clear instructions for how to start and what we need from you. This could include pictures of products you like with notes on any adjustments. We’ll happily guide you.

Extra Notes Feel free to take design inspiration from our Ready Design range – taking parts from one design and adding to another or combining them with your own ideas.

You only pay for what you order (the full price list can be seen at the end of this catalog).

If you want other cuts or to adjust the design of our styles in other ways, you can - but we’ll treat it as a custom design and we need to re-develop the style from scratch, this would include development fees.

**Starter Kits**

We’ve helped hundreds of swim and apparel labels successfully launch their brands from scratch. Our Starter Kits are a compilation of useful tools for you to kick start your journey.

**View Starter Kits**
Fabrics

We offer a wide range of fabrics and constantly add new fabrics in tune with current trends for you to choose from. All our fabrics are tested by us and all have the quality to make a high-end product.

See latest fabric range and colors [here](#)
We do all our prints in house. All of our prints are made using ecological inks (ECO PASSPORT certified by OEKO-TEX®).

**Print Strikes**

For all prints, we offer a mock-up & print-strike service, where we send you a digital mockup for proportion (size) approval, and then we make a 30x30cm trial-print swatch to send you. From there, you can personally verify the quality of the print itself, and if there’s something you aren’t satisfied with, we’ll revise it!

For fabric prints, the digital print file (artwork) must be high-resolution (300dpi+) to print well. It can be a vector, JPG, PNG, TIFF, or any other format – as long as the file is high-res.

**Seamless**

Artwork should be seamless or set up for repeat, which simply means that you can put copies of the print next to it in each direction so that it matches up without any interruption in the pattern. If it’s not repeatable initially, you can sometimes mirror the image four ways, and thus create the same effect. We can assist you in ensuring that your print is able to be repeated and replicated in a clear pattern.

**Scale**

Lastly, the scale of your print is key. For example, you have an artwork/pattern of a starfish – what’s the height of each starfish? The difference between a small cute 3cm starfish and large 15cm starfish will make a difference on your end-result.

How does it work when I order full rolls of imported Italian fabrics?
If you want to order colors of Carvico or JL that is not in our stock, we have to order full rolls. We make the purchase for you, but you are responsible for covering the full and complete cost of these materials before your purchase. When you use the fabric later on in production, we deduct the value of the fabric used against the production. You can see it as a pre-paid credit.
However, if you choose to save some fabric or not use it all, that means you have fabric that is left in our warehouse, which we will keep for future orders. When you use that fabric later on for a future order, we will credit the value for that next order.
Example: You’ve placed a total order of $10,000 and in this bulk production, we are using your saved fabric rolls at value of $3000 – then that amount will be deducted from your next order so you’ll have a value of $7000 remaining.

Do you sell fabrics only?
Yes. We sell fabrics with minimum order of 1 meter. Order here.
We donate 10 cents per active and lounge set to clean up our oceans. Read more about our ethical and sustainable methods here.
