Ready Design

Ready Design is our ready-to-go collection of swimwear designs! Choose the pieces you like and adorn with your very own branding – and they're ready to sell! Each year, we conduct extensive research on what bikinis and swimsuits are in, what's out, and what the upcoming trends are for the season ahead. From there, we create a collection of styles that include those on-trend styles and re-worked classics. We also keep bestsellers from previous seasons too. So if there's a product you loved from last year, we can help you revive it.

You can mix and match tops and bottoms between any styles. You could even combine them with your custom designs to flesh out your swim line. All styles are available in our full range of fabrics, in all colors, and in any print. There are no development costs (pattern making & grading) with ready design. You only pay per piece. This method offers you the quickest, simplest, and most affordable method to manufacture your own swimwear label.

Buy samples and bulk on shop.baliswim.com now!

Custom Design

For us to develop your dream swimsuit and bikini, we want to understand your ideas clearly. Ideally, this means complete tech specs and patterns or samples of what you want to develop. But since we also work with non-designers, we are definitely flexible. We have example templates (which we call sample specs) with clear instructions to show you just where to start and what we need from you. This could include pictures of products you like with notes on any adjustments.

Extra Notes Feel free to take design inspiration from our Ready Design range – taking parts from one design and adding to another or combining them with your own ideas.

Ready Design 2026

**You can buy samples
and bulk of it right now
at shop.baliswim.com!**

Mix and match tops and bottoms between any styles you wish. You could even combine our designs with your own to complete your swim line. Take the designs as they are (and add your choice of colors and prints) and you'll have a development fee-free experience (pattern making & grading)!

You only pay for what you order (the full price list can be seen at the end of this catalog).

For bottoms and swimsuits, we offer three coverage options: cheeky, medium, or full coverage.

If you want other coverage cuts or to adjust the cuts of our styles in other ways, you can - but we'll treat it as a custom design and we need to re-develop the style from scratch. This would include development fees.

Adding or switching a small accessory detail is most likely acceptable without re-development. If you have a special request, just ask! We'll do what we can to help.

We will be releasing new designs yearly, both classics and on-trend.

Starter Kits

We've helped hundreds of swim and active labels successfully launch their brands from scratch. Our Starter Kits are a compilation of useful tools for you to kick start your journey.

Fabrics

We offer a very wide range of swimwear fabrics at low MOQs. Weekly, we update with new colors, fabrics, and stock reports from our warehouse, which you can find all on our website. We recommend that you pay us a visit frequently to stay up to date with everything that we have to offer.

Prints

Endless print options. Always using Eco Ink.

We do all our prints in-house which means we keep a full control with a fast turnaround. Tests (print strikes) and bulk prints are made in one day, and not in weeks that outsourcing may offer. All prints are made using ecological inks ([ECO PASSPORT certified by OEKO-TEX®](#)) on state of the art Japanese printing machines.

We print on durable polyester fabrics made for digital sublimation printing. This method keeps the colors permanently deep into the yarns and the print is very vibrant and crisp.

Print Strikes

For all prints, we offer a mock-up & print-strike service, where we send you a digital mockup for proportion (size) approval, and then we make a trial-print a 30×30cm swatch to send you. From there, you can personally verify the quality of the print itself, and if there's something you aren't satisfied with, we'll revise it!

For fabric prints, the digital print file (artwork) must be high-resolution (300dpi+) to print well. It can be a vector, JPG, PNG, TIFF, or any other format - as long as the file is high-res.

Seamless

Artwork should be seamless or set up for repeat, which simply means that you can put copies of the print next to it in each direction so that it matches up without any interruption in the pattern. If it's not repeatable initially, you can sometimes mirror the image four ways, and thus create the same effect. We can assist you in ensuring that your print is able to be repeated and replicated in a clear pattern.

Scale

Lastly, the scale of your print is key. For example, you have an artwork/pattern of a starfish - what's the height of each starfish? The difference between a small cute 3cm starfish and large 15cm starfish will make a difference on your end-result.

Design Choices

- For design considerations, we recommend most startups to begin with our Ready Designs for their initial collection. Our Ready Designs are carefully researched to align with current trends, proven to sell well, and tailored for international markets. With a wide range of options and variations, you can still achieve uniqueness in your market. Alternatively, you can also blend your own designs with ours. Feel free to draw inspiration from our designs and modify them to create new ones, if desired.

How does it work when I order full rolls of imported Italian fabrics?

If you wish to order specific colors of Carvico or JL fabrics that are not currently in our stock, we will need to order full rolls. We will facilitate the purchase on your behalf, but it requires 100% pre-payment from you before the order is placed. Once the fabric is used in production, we will deduct its value from the overall production cost, essentially treating it as a pre-paid credit.

Alternatively, if you decide to save some fabric or not utilize the entire roll (e.g., 35 meters), the remaining fabric will be stored in our warehouse for future orders. When you choose to use that saved fabric in a subsequent order, we will credit the corresponding value towards the total cost of that order.

For example, let's say you placed a total order of \$10,000, and during the bulk production, we utilized your saved fabric rolls valued at \$3,000. In this case, the \$3,000 will be deducted from the order, resulting in a remaining balance of \$7,000.

Who are your clients?

At Bali Swim, client confidentiality is non-negotiable.

We do not disclose client names, designs, or any identifying brand details, in strict accordance with our [Terms & Conditions](#). Many of our clients — particularly those in the luxury segment — request to keep their manufacturing partnerships private, and we fully respect that.

While we showcase a few selected public reviews, these are voluntarily shared and carefully presented without naming any brands.

Each year, we support the growth of over 100 swimwear labels across North America, Europe, Australia and Asia — from first-time founders to established brands.

Your privacy is our priority, always.
